

## BIRD CHECKLIST

*“The eagle, the hawk, the raven, and many other denizens of the air have a place in the Wyakin category.... Wyakin is your faith in some strength to help you, in battle.” ...Yellow Wolf*

This checklist covers Big Hole National Battlefield, and the surrounding area of the Big Hole Valley. Birds that are **highlighted** are those that have been sighted specifically on the Battlefield based on surveys performed by UCBN in 1999 and surveys by the University of Montana Avian Science Center (2007-2009). These birds can potentially be found throughout the Big Hole Valley, as well. Other birds listed are sightings within the Big Hole Valley (not Battlefield specific) and come from information found by utilizing the Natural Heritage Tracker at <http://mtnhp.org/Tracker/NHTMap.aspx>.

### KEY:

- C** Common – frequently or almost always seen
- F** Fairly Common – seen usually in small numbers
- U** Uncommon – often overlooked, seldom seen but not a surprise
- R** Rare – few sightings on record, surprising but not out of range

Sightings will vary greatly depending on the seasons and migration patterns.
